

To the FDA:

RE: Docket NO. 98N-1265

I respectfully submit the following comment:

In its present form, the NCU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of physicians and patients to obtain healthcare products from the provider of their choice, and infringes on the rights of compounding pharmacists to serve the public's medical needs.

As a consumer of medications I have difficulty with toxic reactions to many of the patented (non-compounded) drugs. In the process of using customized compounded drugs I have regained my health and productivity as a citizen and would be saddened to <sup>return to</sup> my ill state of health just because I did not voice my opinion.

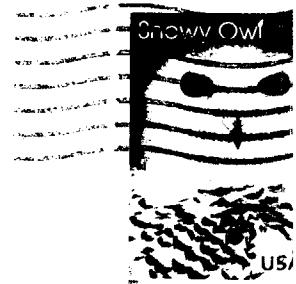

Please amend the NCU now. Thank you.

Respectfully
